

EDUCATION

Saint Louis University

St. Louis, MO

M.S. in Computer Science, GPA: 3.84/4.0

Jan 2024 – Dec 2025 (expected)

- **Coursework:** Principles of Software Development, Computing and Society, Computer Science Colloquium, Special Topics (Software Engineering, Advanced Applications, OSS Products II), Computer Networks, Algorithms, Intro to Machine Learning, Internship with Industry, Web Technologies, Distributed Computing

WORK EXPERIENCE

UCSF LIN Lab

Remote

Software Developer Intern

Jan 2025 – Present

- Developed SoundWell mobile app for patients with congestive heart disease and cleft palate to record audio of target sentences for AI analysis. Used React Native, Firebase backend, Zustand state management, and Figma for UI/UX design.

ShipMyPack (Proprietorship)

India

Founder & Full Stack Developer

May 2025 – Present

- Built a peer-to-peer logistics platform using React Native, NestJS, Firebase, and PostgreSQL. Implemented real-time notifications, OTP authentication, secure payments, and smooth UI across devices.

Saint Louis University

St. Louis, MO

Graduate Student Worker

Aug 2024 – Aug 2025

- Redesigned and developed Where's Religion Mobile app (Expo, iOS/Android) from Figma designs; fixed authentication and theme flow using Redux + Context API.
- Fixed Vimeo playback delays and implemented state-based auto-play for InnerPeace app to improve UX.
- Contributed to UI/UX improvements, feature enhancements, and bug fixes for multiple React Native apps as part of graduate assistantship.

TechEFolks

Madhapur, India

Trainee Software Engineer (Internship)

Dec 2022 – Jun 2023

- Assisted in full-stack development, debugging, and feature implementation in an agile team.

PROJECTS

- **Just a Second Connector:** Served as Tech Lead, UX Designer, and Developer for a social good project at SLU. The app gives people a second chance in life. Built using **React** for frontend and **Express** for backend.
- **Chat Application:** Developed a real-time chat platform using **Socket Programming**. Users can register, select regions, and chat instantly.
- **Multi-Messaging App:** Created a multi-messaging application for WhatsApp using **React Native (Expo)**. Implemented smooth messaging features across multiple accounts.
- **Reminder App:** Built a reminder and scheduling app using **React Native**, enabling notifications and task management with a clean UI.

INVOLVEMENT

- **Hacktoberfest Contributor:** Managed GitHub issues and assisted contributors by assigning tasks, guiding them through issue resolution, and helping with Hacktoberfest participation.
- **Tech STL:** Attended local technology events, networking with professionals and gaining insights into emerging tech trends.

SKILLS

Languages: Python, Java, JavaScript, C++, C

Technologies: Git, Node.js, Express, NestJS, React, React Native, NativeWind, PostgreSQL, MySQL, MongoDB, Flask, Firebase, AWS, Docker, Linux, HTML/CSS, Figma
